About This Content

Tyler Warren brings us his 6th set of 50 monster battlers, with theme of “monster evolution.” Each of the battlers is presented in three stages of evolution. It’s time to add a fun new dynamic to your battler lineup by starting small, evolving, and evolving again!

Use them to evolve in battle, or create a family of monsters (mom, dad, babies), or stronger versions of the same monster, showing their faces as your game progresses! Artwork similar in style to Tyler’s growing library of colorful characters.

Features:

-
- More than 50 unique battlers with matching face sets
 - Files formatted for easy Plug and Play into RPG Maker VX-Ace
 - Included is a background screen overlay that can be applied over battlebacks to give them a stylized texture to match each battler
 - Each battler is also provided in an optional “soft-filtered” version
 - Add these to Tyler’s other battlers and fill your library with 300+ exciting characters for your next RPG Maker Project!
